PROFILE

I am a Java Software Engineer with 5.2 years of experience in the IT industry, including 2.8 years of focused expertise in developing scalable Spring Boot applications and microservices architectures. I specialize in designing and implementing RESTful APIs and building dynamic, high-performance backend systems. I hold a Master's degree in Artificial Intelligence and Data Science, through which I developed a strong foundation in NLP, Deep Learning, and Machine Learning. While my exposure to these technologies has been primarily academic, I've gained valuable hands-on experience through coursework, projects, and research during my studies. With a total professional background of 11.3 years across both IT and non-IT roles, I bring a well-rounded perspective, adaptability, and a strong work ethic. I'm passionate about learning new technologies, writing clean and maintainable code, and building solutions that contribute to meaningful business outcomes.

OBJECTIVE

I am looking for opportunities in Germany to work in a new environment that offers a better work-life balance and a more inclusive culture. Compared to other countries, Germany is advancing rapidly in AI and technology, and I am eager to be part of that growth.

SKILLS

Languages: Java, Python, C, C++, SQL

Programming Skills: Java, Spring Boot, Micro services, Pandas, Sklearn, Numpy, Matplotlib, keras, Flask, Android

Databases: MySQL

Source code management Platforms: GitHub

Tools: IntelliJ IDEA, Postman, Beekeeper, Visual studio, google colab, jupyter notebook,MySQLWorkbench

Knowledge in: Machine Learning, Deep Learning, NLP, Docker, Kubernetes, Exploratory Data Analysis.

EXPERIENCE

- **Software Engineer:** MIT Software Services, kollam (03/06/2024 - 30/04/2025)
- **Software Engineer:** MIT Software Services ,Kollam (07/12/2020 - 30/09/2022)
- **Software Engineer :** Chizrinz Infoway Pvt Ltd, Kollam (02/05/2018 - 27/11/2020)
- **Technical Trainer :** Octec Training Academy , kollam (05/03/2012 - 27/04/2018)

EDUCATION

Mtech Information Technology Specialization in AI and Data Science

Anna University, College of engineering Guindy, Chennai

Oct 2022 - May 2024

Btech Computer Science and Engineering

College of engineering perumon

Jun 2007 - April 2011

PERSONAL DETAILS

DOB : 21.12.1989

Marital Status: Married

Children : 2

Nationality : Indian

Languages : English (Professional Proficiency)
German (Currently Learning)

Interests: Drawing, Singing, Crafting, Gardening, Cycle, Reading, Chess, Pet lover

PROJECTS

Project 1: Real Estate Management

Description: This is a multi-tenant platform for real estate sales and broker management, featuring customer onboarding and automated commission tracking.

Technologies: Java, Spring Boot, Microservices, MySQL, GitLab, Git

Role: Developer

Responsibilities: Design and development, collaborated on requirements analysis, and mentored team members.

Project 2: Tour & Travel

Description: This is a travel platform for selecting tour destinations, offering domestic and international packages.

Technologies: Java 11, Spring Boot, JPA, Spring Security, Maven

Role: Developer

Responsibilities: Development of web APIs, generated reports, imported data

Project 3: Church Management

Description: This is a church management platform for overseeing church operations, providing comprehensive tools for administration and community engagement.

Technologies: Java, Spring Boot

Role: Developer

Responsibilities: Development of web APIs, generated reports, developed new features, and built dashboards.
